

Eden Resort Lancaster, Pennsylvania

400 kW
Natural Gas

Fast Facts:

Location: Lancaster, PA

Generating Capacity: 400 kW

Features: Super Silent Highline Container

About the Site:

Eden Resort & Suites in Lancaster, Pennsylvania, is a 301-room hotel and conference center. In searching for ways to increase energy efficiency and reduce costs, they discovered smart on-site distributed energy solutions. Based on energy study results, they selected a CHP system to reduce costs and to become more energy independent.

Application

This patruus 400 has an electrical output of 400 kW, and is fully containerized in the super silent high line configuration for aesthetics and reduced noise level to 30 dB(A).

Eden Resort is able to enjoy significant cost savings while utilizing the customized features 2G offers, making the CHP an excellent choice for their hotel.
